Executive KPI Dashboard

Your business health at a glance — understand the situation in 20 seconds

 **Quick Summary**

KOE has a **decent Google rating (4.4)** with a solid review base of 400 reviews. The **biggest gap is having no website** — a major missed opportunity. Instagram is active but could be stronger. The cafe is well-positioned in Vesu with good ambience and food quality, but needs to build its digital presence.

What This Dashboard Tells You:

- Green (Strong):** Review volume is good at 400. This shows real customer engagement.
- Yellow (Average):** Brand trust (4.4), Instagram, Local SEO, and Retention all need some work.
- Red (Needs Work):** No website is a serious gap. In 2026, every cafe needs at least a basic web presence.

Executive Summary

Quick snapshot of where KOE stands today

★ **Good food and ambience. Now it is time to build a digital presence that matches your in-cafe experience.**

✔ 5 Critical Insights

- 2. No website is a serious gap.** When someone searches "cafe in Vesu", competitors with websites get found first.
- 3. Rating (4.4) is decent but below top competitors.** 365 Travel Cafe has 4.7. Room to push higher.
- 4. "Made from scratch" is your unique story.** Pizza bases, pasta, coffee from scratch — powerful differentiator not marketed enough.
- 5. Service consistency needs attention.** Some reviews mention slow service. Fixing these could push rating to 4.6+.

Brand Positioning

How customers see KOE today vs. how they should see it

 The Problem Right Now

KOE is known as **"a nice cafe with good ambience in Vesu."** But you make pizza bases, pasta, and coffee from scratch — that is rare. This **"crafted from scratch"** identity is your real differentiator, not communicated clearly online.

Figure 7.1 — Brand Strength Radar (/10)

ASPECT	CURRENT POSITION	SUGGESTED POSITION
Identity	"A nice cafe in Vesu"	→ "Surat's from-scratch craft cafe"
Focus	General cafe, many cuisines	→ Italian-Mediterranean craft kitchen
Tone	Casual, ambience-focused	→ Warm, artisan, story-driven
Content	Food photos on Instagram	→ Behind-the-scenes, chef stories
Audience	General cafe visitors	→ Food lovers, couples, remote workers

Customer Journey Mapping

The path from first thought to regular visitor

🔍 Stage 1: Discovery — "I want to go to a cafe"

- ▶ Searches "best cafe in Vesu" or "aesthetic cafe Surat"
- ▶ Sees KOE on Google Maps with 4.4 rating and 400 reviews
- ▶ **Risk:** Without a website, no menu preview, no story, no booking link.

📁 Stage 2: Research — "Let me check this cafe"

- ▶ Looks at Google photos, Zomato reviews, Instagram
- ▶ **Risk:** No website = no menu, no pricing clarity. May pick competitor.

📍 Stage 3: Visit — "Let me go there"

- ▶ Arrives at IFC, VIP Road
- ▶ **This is where KOE shines.** Ambience hits immediately — cozy, elegant, great lighting.

🍴 Stage 4: Experience — "How is the food?"

- ▶ Most love the pasta, pizza, and coffee mocktails
- ▶ **Weak spot:** Some dishes inconsistent. Service slow at peak times.

🏠 Stage 5: Loyalty — "Will I come back?"

- ▶ Happy customers tag KOE on Instagram
- ▶ **Risk:** No loyalty program, no follow-up, no reason to return specifically.

Figure 8.1 — Estimated Drop-off Risk by Stage

Market Gap & White-Space Opportunities

6 areas where competitors are weak and KOE can grow fast

☆ 1. Basic Website with Online Menu

Every serious cafe has a website. KOE does not. A **simple one-page website** with menu, photos, and "Book a Table" would immediately look more professional.

☆ 2. "From Scratch" Story Content

You make pizza bases, pasta, coffee from scratch. **Rare and powerful**. No competitor tells this story. Reels showing the chef making pasta dough could go viral locally.

☆ 3. Work-From-Cafe Setup

Vesu has many professionals. **Good WiFi, charging points, weekday combo** (coffee + snack) could fill slow afternoon hours (2-5pm).

☆ 4. Brunch & Breakfast Menu

KOE opens at 12pm. Cafe De Meet opens at 8:30am. Adding a morning menu (even 10am) could bring a **whole new customer segment**.

☆ 5. Loyalty Card / Stamp Program

No competitor has a loyalty program. A simple **"Buy 5 coffees, get 1 free" stamp card** could turn one-time visitors into regulars.

☆ 6. Private Events & Birthday Packages

Your indoor+outdoor space is **perfect for small events**. A "Celebrate at KOE" package with decoration + menu could bring high-value group bookings.

Strategic Recommendations

5 focused actions that can make a real difference

1: Build a Simple, Beautiful Website

Evidence: (1) KOE has zero web presence. (2) Both competitors have online presence. (3) Google favours businesses with websites.

Problem: People searching "cafe in Vesu" find competitors first.

- One-page site: hero image, menu, about, location, "Book a Table"
- Google Maps embed and click-to-call
- "Made from scratch" story prominently

Expected: Major improvement in discoverability (medium confidence).

Owner: Owner + Web Dev | **Deadline:** Week 2-3 | **KPI:** Website live

2: Start a Review Collection System

Evidence: (1) 400 reviews vs De Meet's 1,373. (2) Only ~8% customers review. (3) Pushing to 4.5+ would stand out.

Problem: Happy customers leave without being asked.

- Train staff to ask politely
- QR code tent card on every table
- WhatsApp thank-you with review link

Expected: Estimated 30-50 new reviews/month (medium confidence).

Owner: Floor Mgr | **Deadline:** Week 1 | **KPI:** Reviews/month

3: Launch "From Scratch" Instagram Content

Evidence: (1) Reviews praise "made from scratch." (2) No competitor tells this story. (3) Reels get 3-5x more reach.

Problem: Biggest differentiator is invisible online.

- 30-sec Reels: chef making pasta, pizza, brewing coffee
- "Made from scratch at KOE" recurring hashtag
- Post 3-4x/week

Expected: Follower growth and walk-ins within 60 days (medium confidence).

Owner: Social Media | **Deadline:** Week 2 | **KPI:** Followers + views

4: Fix Service Consistency

Evidence: (1) Negative reviews mention slow service. (2) Some dishes inconsistent. (3) 4.5+ cafes rarely have service complaints.

Problem: Inconsistency pulls rating from potential 4.6+.

- Standard prep times for every item
- Weekly staff training
- Fix 2-3 worst-reviewed dishes

Expected: Rating to 4.5+ within 3-4 months (medium confidence).

Owner: Floor Mgr + Chef | **Deadline:** Week 2-4 | **KPI:** Rating trend

5: Launch Weekend Brunch Special

Evidence: (1) Opens at 12pm — misses brunch. (2) De Meet opens 8:30am. (3) Brunch is high-margin, Instagram-friendly.

Problem: Closed during most social-media-friendly meal.

- "Weekend Brunch at KOE" (10am-1pm, Sat-Sun)
- Eggs benedict, pancakes, avocado toast
- Market on Instagram with brunch photos

Expected: New revenue stream (medium confidence).

Owner: Owner + Chef | **Deadline:** Week 4-6 | **KPI:** Brunch covers

When Business Is Down — Diagnostic

If footfall drops, check these 6 areas first

#	PROBLEM	CHECK	QUICK FIX
1	Fewer walk-ins	Google updated? New competitor?	Google update, refresh photos, offer
2	Afternoons empty	2-5pm dead zone	Work-from-cafe, student discount
3	Food complaints	Specific dishes on Zomato?	Fix 2-3 worst items. Retrain.
4	Instagram flat	Frequency? Video? Hashtags?	Switch to Reels. 3-4x/week.
5	Repeats declining	Loyalty program? Follow-up?	Stamp card. WhatsApp messages.
6	Negative reviews	Pattern in reviews?	Reply all. Fix root. Ask happy.

» Your Next 3 Moves (Start This Week)

1

Get a Website

Your #1 priority. Even a simple one-page site transforms visibility.

2

Collect Reviews

QR cards. Train staff. Push from 4.4 to 4.5+.

3

Film "From Scratch"

Show chef making pasta or pizza. Your story. Tell it.

☆ Competitive Differentiation

KOE's defensible advantage is **a premium Vesu location, a genuinely cozy ambience customers rave about, and a rare "made from scratch" kitchen philosophy**. Cafe De Meet competes on entertainment but cannot replicate your craft food story. 365 Travel Cafe has multiple locations but lacks your intimate, artisan identity. **Own the "craft cafe" position in Surat** — where food is made with care, not assembled from packages.

⊗ What NOT To Do

- Do **not** buy fake reviews
- Do **not** try to be everything — focus on craft identity
- Do **not** ignore negative reviews — reply to every one
- Do **not** copy De Meet's DJ model — that's their game
- Do **not** cut food quality — "from scratch" is everything
